Yeah I think we could wait to talk with Gene since I know he wants an overall update and we should coordinate on that.

So you know, in a separate communication challenge I will be calling Jim Sanford in response to email he sent Dave Seter and I yesterday. He was upset about being excluded. I will let you know how that goes.

David Peri brought us all in through the back entrance from Center Street (adjacent to Jeff Page's office) so we never went through the lobby. There was no intention to exclude him. If we knew he was out there I am sure we could have made space for him. Unfortunate but something I suspect we can get past. Shall I call Dave Davis today to explain or we could leave it to talk to Gene tomorrow? Harry.

Yes. We can call him together. Do you know why he wasn't allow at the meeting? EPA didn't request a closed door meeting? We actually expected to see Dave there?

Hi Angeles, maybe we can update Gene together since this was more an EPA requested meeting. We can discuss tomorrow maybe?

Greg

Last week on March 2, Dave Davis drove to Yerington to attend and listen in to the meeting. When he arrived there was no one present. He asked the clerk about the meeting and Dave was told that an EPA meeting was planned and Dave was told that the meeting was only open to "administration". Dave waited outside for an hour and did not observe any attendee's to the building and then drove back to Reno.

Any updates?

Thanks

Gene
